

NANCY CHIPPENDALE'S
DANCE STUDIOS

A LETTER FROM NANCY CHIPPENDALE

We've turned a corner, CHIPPS Nation! After a full season of daily health questionnaires, gallons of hand sanitizer and countless swipes of floor mops, we are on our way back to "normal." *Cue the biggest happy dance ever!*

As we did throughout the 2020-2021 Season, we are continuing to take our lead from local and state officials, so we have amended our COVID Guidelines + Procedures ahead of our Summer Programs.

Please take a moment to review the updated materials available on our website at NancyChippendales.com. Although restrictions have been lifted, we ask you to continue keeping the best interests of our entire studio community in mind. If your dancer or someone in your household has COVID symptoms, tests positive or has been directly exposed, please stay home and notify us. Our continued success is dependent upon all of us remaining open and honest.

We are excited and eager to see the smiling faces of our dancers without masks on, but certainly understand that some dancers and parents will prefer to continue wearing a mask for the time being - we encourage you to do what you are comfortable with. Rest assured, we will continue to amend our guidelines as needed until the pandemic is fully behind us. But in the meantime, we will celebrate the end of so many restrictions and the beginning of a new season of dance!

Happy dancing always,

Nancy Chippendale
